

# COMPLETE ESD PACKAGE

## Meridian's Self-Contained Hydraulic System

Meridian's low and high pressure ESD's are field-tested delivering reliable valve shutdown in difficult environments. Delivering performance and quality, the Meridian ESD package will save you both time and money.

### FEATURES & BENEFITS

- Field-proven for extreme service conditions.
- Exceptional in remote, unmanned, non-powered & critical service.
- Mounted either local or remote as per customer requirements..
- Eliminates the need for expensive backup systems (plant air, fuel gas, electricity or nitrogen).
- Eliminates hazardous gas fugitive emissions such as H<sub>2</sub>S.
- Eliminates corrosion that occurs when using fuel gas as a supply medium.
- The Meridian ESD is adaptable for SCADA, telemetry control or other remote signals as required.
- Spring failsafe design.
- Fusible plug.
- Sealed system - pressure vacuum filler cap reduces condensation in the fluid reservoir.
